Green Neighborhood Credit Frequently Asked Questions:

1. Who qualifies as a Green Neighborhood?

Any of the following:

*A Neighborhood Association

*A neighborhood of at least 20 households

*An office, school, religious organization or other group with at least 20 households

2. How many people do we need to inform about the program?

You should promote the challenge to everyone in your target group or neighborhood.

3. How many people need to participate in a storm drain marking activity?

You must submit the names of members of at least three households that participated.

4. Do you know where we can find an earth-wise landscape professional for common areas?
While the City does not recommend professionals, we have trained many in environmental principles.

Visit http://www.austintexas.gov/growgreen/landscape_professionals.cfm

to see a list of businesses and a link to a fact sheet with questions to ask a professional.

5. How do we host a one-time creek cleanup or adopt a creek?

Call Keep Austin Beautiful at 512-391-0617 or visit www.KeepAustinBeautiful.org

6. What do I need to include in a history of my creek or in the photo documentation?

Visit www.austintexas.gov/GIS/FindYourWatershed to learn about the health of your neighborhood creek.

Who or what is the creek named after?

When was the creek named?

Submit at least two historical photos of your creek from the Austin History Center.

Provide at least five (5) photos of the creek along various parts of its length including:

-the prettiest area

-the most problematic area (trash, erosion, etc)

-a developed area

-an undeveloped area

-recreation on the creek

Present your history/photos to the neighborhood association, or place it in a newsletter or on an email listserv.
