Drawing in Pen & Ink: Brushes, Washes & Color

Adrienne Hodge

Ink washes and watercolor or gouache (a more opaque watercolor paint) can be highly effective in transforming simple pen & ink drawings into multi-media masterpieces. This class is designed for students who have some basic or more intermediate drawing skills and would like to know more about the process, materials and techniques of creating memorable drawings using pens, brushes, ink washes, and color. We will cover all of the following skill sets in this class: color mixing and theory, creating and layering ink and color washes, controlling a paintbrush, and sharpening existing drawing skills. No experience with pen & ink drawing required.

CLASS IN 8E.

SUPPLIES

- Students must bring provide their own supplies.
- Other supplies may be added as the course progresses, as suggested by the instructor.
- Please keep your receipts in case the class is cancelled or to return unused supplies.

Supplies for the first day of class:

- Set of 4 Faber-Castell brand India Ink pens in black (pens must be India ink, as it will not bleed when water is added to it, make sure to get 3 sizes (Small, Medium & Brush size) if not purchasing the set)
- A small bottle of black India ink.
- 5-6 watercolor brushes of decent quality (try to find at least one extra fine point brush with a size listed “round 0” or “round liner”, the smaller the better. Then choose some other brushes of various sizes and shapes—both round and flat)
- 1-2 cups for water
- 2-3 plastic palette trays (make sure to get at least one round tray with wells to be used for ink washes—these are usually only $1 each!)
- Choose EITHER watercolor or gouache for the class (instructor recommends gouache for its ability to be opaque like ink and how it generally cooperates with ink washes when layering).
- --When purchasing gouache--get a basic set of 5 colors of gouache (as they are likely to be better quality than the cheaper sets with many premixed colors and we will be practicing color mixing and theory). (M. Graham or Holbein are good brands)
- If choosing a watercolor set, you are likely to find decent set of reasonable price with 12 colors. Try to find a set that is not cheapest available, but not the most expensive either. (Grumbacher or Holbein are good brands)
- A multi-media or watercolor paper sketchbook. Recommended: 9” x 12” or 11” x 14”, but feel free to get a smaller one if you prefer miniature or detail works! (again, try to find a mid-range /quality sketchbook)
- 2-3 pencils for sketching

Optional Supplies

- Other colors of India Ink pens or other colors of bottled India ink.
- Any other types of inks you’d like to experiment with like calligraphy ink or walnut ink (used for calligraphy and preferred by the instructor for ink washes when adding sepia color)
- A roll of paper towels.
- Printed reference images.

June, 2014

Dear DAC Customer:

This letter is to serve as official notification from the City of Austin, as per TCEQ requirements, to parents and other customers of the Dougherty Arts Center (DAC) about the presence of an old landfill under and adjacent to the DAC. There has been no change in the conditions of the Dougherty Arts Center building or the landfill; we are simply providing information so that you can make informed decisions.

The landfill lies under the majority of the building and extends under the lawn to the east of the building. The landfill has been thoroughly investigated for the safety of everyone involved. The City's Investigation and Evaluation Team included staff from the Health and Human Services Department, Watershed Protection and Development Review Department as well as outside environmental experts. The investigation has not identified an exposure risk to users of the DAC but we want parents and other customers to be aware of the situation and to know that the assessment is ongoing.

The City discovered this previously unknown landfill during the initial construction of Butler Park in April of 2006 and took immediate action by cordoning off the contaminated area and starting its investigation. Health risks from old landfills such as this would primarily be from direct contact with the buried materials or from landfill gases such as methane or carbon monoxide.

The results of the investigation indicated:

- The landfill materials appear to be over 75 years old and relatively benign. The only identifiable materials are glass bottles, ceramic pieces and pieces of metal.
- The materials are covered by a layer of soil that ranges from 8 inches to 6 feet in depth.
- **No methane gas nor carbon monoxide have been found in seven years of monitoring.**
- Based on initial testing, the primary contaminant of concern is the elevated lead levels within the buried materials. These elevated lead levels have not been identified in the surface soil where they would pose a health risk. We have contained the contaminated areas.

Per EPA and TCEQ directives, the City of Austin will continue to monitor the situation with the use of methane, natural gas, and carbon monoxide detectors both in the building and at bore holes drilled through the foundation to check gas levels below the building. The playground area and the gas monitors are checked by daily inspections and by quarterly visits from the Parks and Recreation Safety Officer who has also contributed to the safety measures taken.

We will remain vigilant in our efforts to manage this issue. We believe that the DAC and its surrounding parkland are safe but we want to be sure all interested parties are aware of the situation. If you have any questions, please do not hesitate to call:

Laura Esparza, Division Manager, History, Arts and Nature Division, 512-974-4001.
Mary Ann Vaca-Lambert, Supervisor, Dougherty Arts Center School, 512-974-4038
