AUSTIN. May 22, 2019 - Low-fare carrier, Frontier Airlines today begins new service from Austin-Bergstrom International Airport (AUS) to San Francisco International Airport (SFO). To celebrate the start of this new, low-cost service, Frontier is offering fares as low as \$59*, which are available now at FlyFrontier.com.

“We are thrilled to begin service from Austin to San Francisco,” said Daniel Shurz, Senior Vice President, Commercial for Frontier Airlines. “Frontier is always looking for ways to make travel from central Texas easier and more affordable, and our Kids Fly Free and Friends Fly Free programs are the latest example of what we mean by Low Fares Done Right.”

“Service to San Francisco marks Frontier’s 19th non-stop route from the Austin South Terminal,” said Jeff Pearse, CEO, LoneStar Airport Holding, LLC and operator of the South Terminal at the Austin airport. “We are pleased to welcome those travelers to the South Terminal - and invite them to enjoy an airport experience that evokes the golden age of air travel - intimate, retro design, outdoor seating, a food truck and a vibe that is uniquely Austin.”

Frontier is focused on more than low fares. The carrier offers customers the ability to customize travel to their needs and budget. For example, customers can purchase options a la carte or in one low-priced bundle called the WORKS. This bundle includes refundability, a carry-on bag, a checked bag, the best available seat, waived change fees, and priority boarding.

The airline’s frequent flier program, *FRONTIER Miles* lets members enjoy many benefits as well as to attain Elite status. Like the airline, *FRONTIER Miles* is family friendly, and the program makes it easy for families to enjoy the rewards together, including family pooling of miles. *FRONTIER Miles* is aptly named because you earn one mile for every mile flown - no funny formulas at Frontier. If a customer travels a little or a lot, they will find *FRONTIER Miles* rewarding.

Frontier flies the youngest fleet in the industry, comprising over 85 Airbus A320 Family aircraft. With nearly 200 new Airbus planes on order, Frontier will continue to grow to deliver on the mission of providing affordable travel across America. Frontier’s young fleet also ensures that the company keeps fares low and that customers will enjoy a pleasant and reliable experience flying with the airline.
